

In-House Trainee

Every year we look to recruit In-House Trainees, to take part in an 18-month training programme. During these 18 months you will spend time in the following departments:-

- Restaurant
- Reception
- Kitchen
- Conference
- Bar
- Housekeeping
- Administration (Sales, Accounts)

You will be trained to a supervisory level in each department. The programme is flexible as it is designed and managed by you along with the personnel department and senior management. Once successfully completed the programme, we would hope to offer a suitable supervisory position and help you to develop within the Company. To support your new skills, you will also attend a range of internal and external training sessions.
